"The customization of the order including the variety of restaurants available, unique items just for ROTR customers, a name associated with each item for simplicity, and a note to provide extra directions to the driver for hard to find spots is great."

Jon C. / West Hills, CA

"This is a fantastic service, LOVE ROTR!! I have used it multiple times, each time having my food delivered mostly on time. The delivery people are pleasant, it's easy to order and the selection of restaurants is great."
